Fresh graduate with a Diploma in Information Management, strongly interested in web development, particularly frontend, data entry, and Microsoft Office. Experienced in building websites using the Laravel framework. Gained professional work experience through an internship as an administration assistant at the PPPAKB Office of Jember Regency. Currently, my short-term goal is to secure a job aligned with my field of study and interests within the next 6 months, adapt to a new work environment, and deepen my knowledge of industry practices. In the medium term, I plan to enhance my technical skills through training and courses, as well as make significant contributions within a team. In the long term, I aspire to become an expert in my chosen field, lead projects or teams, and achieve a leadership position.
